ARTIST BIOGRAPHY

PAULINA GUAJARDO - PAOH ART

My name is Paulina Guajardo, and I moved from Mexico to Miami in 2012.

Being the daughter of a renowned Mexican artist, I have been surrounded by art and color all my life.

I graduated as an Architect and Graphic Designer, and since that time I have always been dedicated to the world of creativity in many of its forms.

When I moved to Miami, I started as an art instructor for adults and children, teaching them how to create different artworks such as painting, sculpture, drawing, collage, among others.

I also had the opportunity to sell my art in different galleries around the United States and onboard cruise ships.

When the pandemic began, I started making murals, logos and lettering for some companies that wanted to make their spaces more beautiful, and from that moment I knew that my future was to give a touch of color and design to all kinds of businesses or homes. That was what made me the happiest person on Earth!

As I had more requests from clients who admired my work, I decided to found my own company: Paoh Art Inc.

The mission of Paoh Art Inc is to transform spaces into magical places, either with a mural, a logo, some lettering or just by painting their floor.

I am thrilled to announce that I will be collaborating with MAR Interiors of Fort McMurray, AB, on an exciting new art mural project!

MAR Interiors is renowned for their exceptional design work, and I am honored to be partnering with Marlene to create a stunning visual masterpiece for the renowned Tavern On Main. This project will be a true collaboration, combining my artistic vision with MAR Interiors' expertise in interior design to bring a unique and captivating piece to life.

MAR + PAU STORY

Paulina and Marlene have been best friends since they were little, their creative minds and unique friendship is like no other! They both graduated from their alma mater CEDIM in Monterrey, Mexico (the city where we they were born and raised).

Paulina graduated as an Architect and Graphic Designer, and Marlene graduated as an Interior Architect.

Since they were young they always hustled and did many projects together and continue to do so.

Life took them apart and moved to two different countries but that did not stop them.... Marlene created MAR Interiors and Paulina PAOH Art and while they are apart they continue to work with each other behind the scenes.
